## Career Summary

I am a self-motivated & passionate professional developer who loves to work on large scale projects. I have done certifications in Front End, Angular2+ and WordPress development from LinkedIn Learning due to which I have extensive knowledge on these fields. I have also worked on multiple projects and collaborate with clients from different countries. Now I am looking for an opportunity where I will utilize my skills effectively and prove myself as a precious asset for the company.

## Summary of Qualifications

- Excellent knowledge of WordPress theme customizations and building from scratch.
- Familiar with WordPress Plugin Development and REST API.
- Good Knowledge of JavaScript (ES6) and its frameworks.
- Proficient knowledge of HTML and CSS.
- Expertise in making responsive layouts with Bootstrap.
- Excellent Familiarity with CSS Predecessors (LESS and SASS).
- Comfortable in making cross browser compatible layouts.
- Worked in Version Control Systems like Git and GitHub.
- Good Knowledge of JavaScript (ES6) and its frameworks.
